DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2 July 2007 has been entered.

Election/Restrictions

Claims 1-27 are currently pending.

Claims 8-26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12 May 2006.

Claims 1-7 and 27 are currently under examination and subject to the following election/restriction requirement.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Specie A: Elect claims 1-5, 7 and 27.

-Please further elect either aromatic synthetic adsorbent **or** methacrylic synthetic adsorbent from claim 7.

Specie B: Elect claims 1-4, 6, 7 and 27

-Please further elect either aromatic synthetic adsorbent **or** methacrylic synthetic adsorbent from claim 7.

In order to be fully responsive to this requirement, Applicant must elect either Specie A **or** Specie B, **and** further elect one adsorbent from within the Specie elected.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Specie A: claims 1-5, 7 and 27.

Specie B: claims 1-4, 6, 7 and 27.

The following claims are generic: 1 and 3.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species lack a core feature. For example, claim 5 is drawn to freeze dried powder, whereas claim 6 is drawn to a pharmaceutical composition.
